Re: **Notice of Violation**
NPDES Permit Tracking No. TNS077810
City of Greenbrier Storm Water Management Program Audit

Dear Mayor Wilson:

The City of Greenbrier, as an operator of a designated regulated small municipal storm sewer system (MS4), was required to obtain National Pollutant Discharge Elimination System (NPDES) permit coverage. Coverage was issued to the City of Greenbrier under NPDES Permit Number TNS077810, effective July 7, 2003. The NPDES permit requires the development and implementation of a stormwater management program (SWMP) to reduce the discharge of pollutants from the city's MS4. On November 9, 2009, I conducted an audit of the city's program.

The audit revealed that the City of Greenbrier has not developed the six minimum control measures required to implement the City's MS4 stormwater management. Failing to develop and implement the required stormwater management program is a violation of the NPDES Permit and the *Tennessee Water Quality Control Act*. Therefore, this letter will serve as a formal Notice of Violation and by copy will notify our Enforcement Section for possible further action, which may include monetary penalties.

To begin bringing the City of Greenbrier into compliance, it is requested that within 60 days of receipt of this letter, the City of Greenbrier provide a written response describing the activities taken or planned to develop and implement the six minimum control measures required to establish an effective MS4 stormwater management program.

The Honorable Billy Wilson
